STATE OF NEBRASKA

DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-19360,

PETITION FOR A WAIVER OF OUTLET WORKS DWV-5399

AND PLAN OF RESERVOIR 19272

WATER DIVISION 1-B

BACKGROUND

1. On July 14, 2004, the Department of Natural Resources (Department) issued an Order declaring a formal moratorium in the Republican River Basin on the issuance of all new surface water appropriations.

2. On March 22, 2013, John W. and Leasa F. Brumbaugh filed petition VAR-4609 in the Department for Leave to File or Consider an Application for a New Surface Water Appropriation within a Moratorium Area (Petition). The draft application and documentation attached to the petition is for a permit to impound approximately 26.0 acre-feet of water from Patterson Creek in the existing Brumbaugh Reservoir located in the SW¼SW¼ of Section 27, Township 1 North, Range 17 West of the 6th P.M. in Harlan County for the purpose of water for livestock.

3. On March 24, 2015, the Department granted petition VAR-4609 for leave to file an application for a permit to impound water.

4. On April 30, 2015, John W. and Leasa F. Brumbaugh filed in the Department application A-19360 for a permit to impound water, petition DWV-5399 for a waiver of the requirement of outlet works, plan of reservoir number 19272 and specifications according to *Title 457 Neb. Admin. Code* Chapter 11.

5. Construction has been completed.

ORDER

IT IS HEREBY ORDERED Application A-19360, Petition DWV-5399 and plan of reservoir 19272 are APPROVED subject to the following limitations and conditions:

1. The source of water is Patterson Creek.

2. The priority date is April 30, 2015.

3. The water to be stored under this appropriation is for the purpose of providing water for livestock.

4. The amount of water that may be diverted shall not exceed 18.1 acre-feet per year to be stored in Brumbaugh Reservoir. Brumbaugh Dam is located SW¼SW¼ of Section 27, Township 1 North, Range 17 West of the 6th P.M. in Harlan County.

5. *Neb. Rev. Stat.* § 46-241(5) states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required downstream in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls, or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock ... ."

6. The owner or possessor of the reservoir storing water pursuant to A-19360 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.

7. A waiver of the requirement of outlet works, by petition DWV-5399, has been granted. This waiver does not relieve the owner from the responsibility to pass a portion of the reservoir inflow by some method for downstream appropriators should there be a need for water administration; or if water should be required for livestock needs, unless the appropriator is a political subdivision. The Department may rescind the waiver and require installation of appropriate outlet works at a later date if it is determined that the responsibility to pass inflows is not being met or cannot be met by another method.

8. The appropriator must comply with all relevant statutes. This includes, but is not limited to, the following:

   A. Notify the Department of any change in ownership or address.

   B. Receive approval prior to taking any action that changes the storage capacity of this reservoir, plan of reservoir 19272 or the type of appropriation.

   C. Assume liability for all damages due to leakage, overflow or structural failure of the structure.

   D. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations and any orders issued by the Director of the Department of Natural Resources may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.
