

STATE OF NEBRASKA

DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-18918

WATER DIVISION 1-C

BACKGROUND

1. On May 31, 2012, Jeremy W. Heitmann, on behalf of Heitmann Brothers, L.L.C., filed in the Department of Natural Resources (Department) application A-18918 for a permit to impound water and DWV-2342, a petition for a waiver of drawdown requirement.

2. Construction has been completed.

ORDER

IT IS HEREBY ORDERED Application A-18918 and DWV-2342 are APPROVED subject to the following limitations and conditions:

1. The source of water is a tributary to Spring Creek.
2. The priority date is May 31, 2012.
3. The amount of water that may be diverted shall not exceed 9.6 acre-feet per year to be stored in Heitmann Reservoir No. 2. Heitmann Dam No. 2 is located in the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 8, Township 1 North, Range 3 East of the 6th P.M. in Thayer County.
4. Neb. Rev. Stat. § 46-241(5) states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls, or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock"
5. The owner or possessor of the reservoir storing water pursuant to A-18918 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.
6. A waiver of the requirement for a drawdown, DWV-2342, has been granted. This waiver does not relieve the owner from the responsibility to pass a portion of the reservoir inflow by some method for downstream appropriators should there be a need for water administration; or if water should be required for livestock needs, unless the appropriator is a political subdivision. The Department may rescind the waiver and require installation of appropriate outlet works at a later date if it is determined that the responsibility to pass inflows is not being met or cannot be met by another method.

7. This appropriation is subject to the provisions of the Blue River Compact and the appropriator could be required to pass inflows if Compact flows are not being met.
8. The appropriator must comply with all relevant statutes. This includes, but is not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Receive approval prior to taking any action that changes the storage capacity of this reservoir or the type of appropriation.
 - C. Assume liability for all damages due to leakage, overflow or structural failure of the structure.
 - D. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.
9. The appropriator must comply with the following deadlines:
 - A. A map of reservoir and specifications according to *Department of Natural Resources Rules of Practice and Procedure, Title 457 Neb. Admin. Code Chapter 11* must be filed within six months of the signing date of this application approval. No rights shall be deemed to have been acquired until the provisions of this paragraph have been complied with, and a failure to do so shall cause a forfeiture of the appropriation and all rights thereof.
 - B. The applicant has a preferred right to file an application for a permit to appropriate the water stored for some useful purpose until October 1, 2014

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations and any orders issued by the Director of the Department of Natural Resources may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.
