

STATE OF NEBRASKA
DEPARTMENT OF NATURAL RESOURCES
ADDENDUM TO APPLICATION FOR A CHANGE OF APPROPRIATION
CHANGE IN TYPE OF APPROPRIATION

1. This application proposes the following change in the type of appropriation:
(check **one**)

FOR DEPARTMENT USE ONLY

Application T – _____

- Natural flow appropriation for direct out-of-stream use to a natural-flow appropriation for above ground reservoir storage.
- Natural flow appropriation for direct out-of-stream use to a natural-flow appropriation for intentional underground water storage.
- Natural flow appropriation for intentional underground water storage use to a natural-flow appropriation for direct out-of stream use.
- Natural flow appropriation for intentional underground water storage use to a natural-flow appropriation for above ground reservoir storage.
- Natural flow appropriation for direct out-of-stream use to an instream appropriation subject to Nebraska Revised Statutes Sections 46-2,107 to 46-2,119.
- Natural flow appropriation for above ground reservoir storage use to an instream appropriation subject to Nebraska Revised Statutes Sections 46-2,107 to 46-2,119.
- Natural flow appropriation for intentional underground water storage use to an instream appropriation subject to Nebraska Revised Statutes Sections 46-2,107 to 46-2,119
- Natural flow appropriation for direct out-of-stream use to induced ground water recharge.
- Natural flow appropriation for above ground reservoir storage use to induced ground water recharge.
- Natural flow appropriation for intentional underground water storage use to induced ground water recharge.
- Natural Flow appropriation for incidental underground water storage to a natural-flow appropriation for intentional underground water storage at the same location.
- Storage use appropriation for incidental underground water storage, to intentional underground water storage at the same location.
- Natural flow or storage use appropriation for direct out-of-stream use, intentional underground storage, or storage to an instream appropriation for augmenting flow or to increase the frequency that a diversion rate or rate of flow specified in another valid appropriation is met.

2. Amount of water appropriation proposed to be changed to new type of appropriation:

Rate _____ cubic feet per second (if applicable)

Annual Volume _____ acre-feet

3. If the proposed change is of a natural-flow or storage-use appropriation for incidental underground water storage to an intentional underground water storage at the same location, supply information on separate paper attached to this application concerning the **water that was consumed prior to the change** and the amount of **water that will be consumed after the change.**

4. If application is filed by an irrigation district, reclamation district, public power and irrigation district or mutual canal company, the names, addresses, and signatures of the landowners to whose land the appropriation is appurtenant shall be submitted on DNR Form 962-6 with this application indicating they agree to have the type of appropriation changed.
