RE: Plum Creek Feedyard Pond 1 – DNR No. P-16191 and P-16706

Dear Mr. Bellamy:

The Nebraska Department of Natural Resources sent you a letter dated March 28, 2007 concerning the construction status of Plum Creek Feedyard Pond 1. The updated number for this project is P-16706, and the project has been given a required completion date of 10/1/2007.

A representative from Settje Agri-Services called and informed me of this extended completion date. The original job number (P-16191) had not been cancelled in our files. Please disregard the letter from March 28, 2007. I apologize for the oversight, and I wish you luck for a successful project.

Sincerely,

Ned Tramp, P.E.
Dam Safety Engineer

cc: Ryan Brandt, P.E., Settje Agri-Services
