This matter comes before the Director of the Department of Natural Resources (Department) pursuant to Neb. Rev. Plan P-18154 and associated specifications have been examined. The examination shows that:

1. The plan is for a proposed dam subject to the *Safety of Dams and Reservoirs Act*. The dam is located in the NE1/4 of Section 35, Township 12 North, Range 20 West of the 6th P.M. in Dawson County.

3. Bart Beattie, 44295 Road 767, Sumner, Nebraska 68878, owns the dam.
4. The drawings and specifications were examined by a Registered Professional Engineer of the Department and were found to be consistent with current standards.
5. Following consultation with the Nebraska Game and Parks Commission, the Department finds the project will have "No Effect" on any state listed threatened or endangered species or their critical habitat.
6. The non-feedlot drainage area of 0.0 acres is less than the allowable twenty-five acre limit.

The plan is hereby APPROVED subject to the following limitations, conditions and notice.

1. This approval will remain in effect for purposes of construction until November 1, 2014.
2. The dam owner must comply with all relevant statutes. This includes, but is not limited to, the following:
