

NIENHUESER FARM'S

---

RECEIVED

JAN 16 2007

DEPARTMENT OF  
NATURAL RESOURCES

January 9, 2007

To: Tracy Zayac, Rod Horn and NRD board of Director's:

In the request from Tracy Zayac.

Tracy will not accept us to plant millet instead of corn to offset the water use use for the 38 acre ft. to be transferd to the wind farm project. So now Bruce Nienhueser will set a side 32.5 acres as requested by Tracy, and not irrigate for the 2007 season. The remainder acres will be under normal irrigating pratice.

Sincerely,

*Bruce Nienhueser*
