DNR Form 613

STATE OF NEBRASKA DEPARTMENT OF NATURAL RESOURCES

APPLICATION FOR A PERMIT TO TRANSFER GROUND WATER TO ADJOINING STATE

INSTRUCTIONS

For Department Use Only

This form must be completed in full. An incomplete or defective form will be returned. Failure to resubmit a corrected application within the time limit specified will cause dismissal of the application. Complete items 1-8 by printing in ink or typing the appropriate information. The following information is also required (see Department Rules, Title 456, Chapter 6 for requirements):

1. A map submitted on 8 1/2" x 11" paper or paper folded to such a size showing the location of the well(s); the pipeline(s) or other means of transporting water; the location of use.
2. Information on the possible negative effects of the proposed withdrawal on ground water and surface water supplies in the area.

A non-refundable filing fee of \$10 (payable to the Department of Natural Resources) must accompany this application. Forward this application, fee and map to: Department of Natural Resources, P.O. Box 94676, Lincoln, Nebraska 68509-4676. The telephone number is (402) 471-2363.

RE: Application for a Permit to Transfer Ground Water to Adjoining State

To Whom It May Concern:

I would like to have applicable permits completed so that I may transfer groundwater outside of Nebraska from the City of Kimball municipal wells. The main use of the water will be for oil and gas operations.

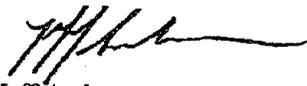

The specific locations and time lines are required on the applications but are unknown at this time, as I do not know where the oil companies will be drilling new oil wells. I can provide this information for each sale in the future if needed. Also, I will not begin transferring any water until these permits are approved and the opportunity to transfer the water presents itself.

The City of Kimball municipal wells are located in the Ogallala formation. Water levels in these wells are approximately 200+ feet to water. No impact will be incurred by the surrounding wells because of the saturated thickness of the aquifer and the relatively small amounts of water I will be using in addition to the current municipal uses.

Alternative sources of water are limited. Irrigation allocations from the South Platte NRD restrict irrigators, and many of them no longer wish to use water for any other purpose other than irrigation. I have previously used water from municipal wells before for in-state purposes. Convenience for me is the largest contributing factor for using the Kimball municipal wells.

If you have any questions please give me a call at (970) 302-3543.

Thank you,

Jeff Anderson

State of Nebraska
Department of Natural Resources
Brian P. Dunnigan, P.E. Director
301 Centennial Mall South
Lincoln, NE 68509-4676

Dear Mr. Dunnigan:

The City of Kimball is sending this letter on behalf of ACT Hot Oil Service, Inc. out of Kimball, Nebraska. The City of Kimball is interested in supplying water needed by ACT Hot Oil Service, Inc. for oil and gas operations located in northeast Colorado and southeast Wyoming.

The City understands they would be using the water for oil and gas operations. We understand their daily need would not exceed 15,000 gallons.

The City is prepared to handle all of ACT Hot Oil Service, Inc. water needs for these projects. We have three water wells for the municipality and a one-million gallon storage reservoir. Bulk water sales are a part of our operation.

The City of Kimball would ask for your support for ACT Hot Oil Service, Inc. using water from Nebraska for these projects located in northeast Colorado and southeast Wyoming. Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Harold M. Farrar".

Harold M. Farrar
City Administrator
