

Department of Natural Resources Monthly Metrics Update

Submitted March 15, 2016

Notes and Other Important Current Activities

- Dam inspections have just begun for 2016. So far, two dams have been inspected.
- Surface water application approvals are now reported monthly, and initiatives are underway to report monthly performance metrics on more program areas within the Department.

Data on dam inspections represent year to date values. Surface water application approval data are reported in monthly values.
