

STATE OF NEBRASKA
DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-18517

WATER DIVISION 2-C

BACKGROUND

1. On May 30, 2007, Neale E. Perrett filed in the Department of Natural Resources (Department) application A-18517 for a Permit to Appropriate Water and map number 16998 showing land proposed to be irrigated under this application.
2. On April 28, 2008, Neale E. Perrett filed in the Department petition VAR-1488 for leave to file an application for a new surface water permit in the fully appropriated portion of the Niobrara River Basin upstream of Spencer Dam. The fully appropriated status of that portion of the Niobrara River Basin has been changed to not-fully appropriated. Therefore, petition VAR-1488 is not relevant due to the status change of that portion of the Basin and should be dismissed.

ORDER

IT IS HEREBY ORDERED that petition VAR-1488 is DISMISSED and application A-18517 is APPROVED subject to the following limitations and conditions:

1. The source of water is the Niobrara River.
2. The water shall be used for domestic purposes such as watering the lawn, trees or gardens for family use.
3. The priority date is May 30, 2007.
4. The appropriator must comply with all relevant statutes. The statutes include, but are not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Notify the Department of the name and address of the person responsible for the use of the water appropriation (this may include farm managers, tenants, or relatives that actually apply the water to the approved use).
 - C. Obtain approval from the Department prior to taking any action that changes the location of the point of diversion, the location of the place of use, the type of use, or the type of appropriation.

5. The appropriator must comply with the following deadlines:
- A. Construction of the diversion works must begin within twelve months of the signing date of this application approval. The appropriator must proceed diligently with the construction unless interrupted by some unavoidable and natural cause.
 - B. Construction of the project must be completed by two years past the signing date of this application approval.
 - C. The appropriation is not considered perfected until water has been beneficially applied for the purpose stated in this approval. The water appropriated under A-18517 must be beneficially used by September 1, 2017.
 - D. After September 1, 2017, a field investigation will be conducted to determine the acres irrigated, after which an order of cancellation will be issued for any unused portions of appropriation A-18517.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations, any orders issued by the Director of the Department of Natural Resources, or the provisions of this Approval may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.

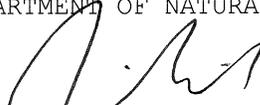

Nebraska law provides that failure to use a portion or all of a perfected appropriation for more than five consecutive years may result in cancellation of the appropriation.

This appropriation is not a guarantee that water will be available. Nebraska law gives priority to senior appropriations. This appropriation may be closed if there is insufficient water to satisfy senior appropriations. If in the future you are not able to divert sufficient amounts of water, and if there are junior appropriations upstream, you may call for water by contacting your local field office.

Nebraska law provides that waters previously appropriated for power purposes may be taken for irrigation purposes upon due and fair compensation.
