

STATE OF NEBRASKA  
DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-19195,  
PETITION FOR A WAIVER OF OUTLET WORKS DWV-4950  
AND PLAN OF RESERVOIR 18834

WATER DIVISION 1-D

BACKGROUND

1. On February 19, 2014, Robbie Hofeling filed in the Department of Natural Resources (Department) application A-19195 for a permit to impound water, specifications according to *Title 457 Neb. Admin. Code Chapter 11*, plan of reservoir 18834, and DWV-4950, a petition for a waiver of the requirement of outlet works for application A-19195.
2. Construction has been completed.

ORDER

IT IS HEREBY ORDERED Application A-19195, Petition DWV-4950 and plan of reservoir 18834 are APPROVED subject to the following limitations and conditions:

1. The source of water is a tributary to Mud Creek.
2. The priority date is February 19, 2014.
3. The water to be stored under this appropriation is for the purpose of irrigation.
4. The amount of water that may be diverted shall not exceed 17.29 acre-feet per year to be stored in Hofeling Pond Number 15-B. The dam that impounds water in Hofeling Pond Number 15-B is located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 15, Township 4 North, Range 8 East of the 6<sup>th</sup> P.M. in Gage County.
5. *Neb. Rev. Stat. § 46-241(5)* states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls, or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock ... ."

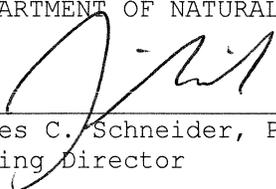

6. The owner or possessor of the reservoir storing water pursuant to A-19151 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.
7. A waiver of the requirement of outlet works, by petition DWV-4950, has been granted. This waiver does not relieve the owner from the responsibility to pass a portion of the reservoir inflow by some method for downstream appropriators should there be a need for water administration; or if water should be required for livestock needs, unless the appropriator is a political subdivision. The Department may rescind the waiver and require installation of appropriate outlet works at a later date if it is determined that the responsibility to pass inflows is not being met or cannot be met by another method.
8. This appropriation is subject to the provisions of the Blue River Compact and the appropriator could be required to pass inflows if Compact flows are not being met.
9. The appropriator must comply with all relevant statutes. This includes, but is not limited to, the following:
  - A. Notify the Department of any change in ownership or address.
  - B. Receive approval prior to taking any action that changes the storage capacity of this reservoir, plan of reservoir 18834, or the type of appropriation.
  - C. Assume liability for all damages due to leakage, overflow or structural failure of the structure.
  - D. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations and any orders issued by the Director of the Department of Natural Resources may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.

DEPARTMENT OF NATURAL RESOURCES
