DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-19273,

PETITION FOR A WAIVER OF OUTLET WORKS DWV-5102

AND MAP OF RESERVOIR 19362

WATER DIVISION 1-C

BACKGROUND

1. On July 10, 2014, Paul D. Soucie, on behalf of the Janet R. Skalka Soucie Life Estate, filed in the Department of Natural Resources (Department) application A-19273 for a permit to impound water, and petition DWV-5102 for a waiver of the requirement of outlet works for application A-19274.
2. Construction has been completed.

ORDER

IT IS HEREBY ORDERED Application A-19273, petition DWV-5102 and map of reservoir 19362 are APPROVED subject to the following limitations and conditions:

1. A plan of reservoir and specifications according to *Department of Natural Resources Rules of Practice and Procedure, Title 457 Neb. Admin. Code Chapter 11* must be filed within six months of the signing date of this application approval or appropriation A-19273 will be CANCELLED.
2. The source of water is a tributary to Walnut Creek located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 17, Township 04 North, Range 07 West of the 6th P.M. in Nuckolls County.
3. Appropriation A-19273 has a priority date of July 10, 2014.
4. The water to be stored under this appropriation is for the purpose of providing supplemental water for an irrigation project authorized under natural flow appropriation A-19275.
5. The amount of water that may be impounded shall not exceed 49.0 acre-feet per year to be stored in Soucie Reservoir. Such amount may be further limited by the Department upon approval of the required plan of reservoir. Soucie Dam is located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 17, Township 04 North, Range 07 West of the 6th P.M. in Nuckolls County.

6. Water may not be withdrawn from Soucie Reservoir for irrigation until an appropriation to do so is obtained.
7. *Nebraska Revised Statutes* § 46-241(5) states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required downstream in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls, or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock"
8. The owner or possessor of the reservoir storing water pursuant to A-19273 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.
9. A waiver of the requirement of outlet works, by petition DWV-5102, has been granted. This waiver does not relieve the owner from the responsibility to pass a portion of the reservoir inflow by some method for downstream appropriators should there be a need for water administration; or if water should be required for livestock needs, unless the appropriator is a political subdivision. The Department may rescind the waiver and require installation of appropriate outlet works at a later date if it is determined that the responsibility to pass inflows is not being met or cannot be met by another method.
10. This appropriation is subject to the provisions of the Blue River Compact and the appropriator could be required to pass inflows if Compact flows are not being met.
11. The appropriator must comply with all relevant statutes. These statutory requirements include, but are not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Receive approval prior to taking any action that changes the storage capacity of this reservoir, map of reservoir 19362 or the type of appropriation.
 - C. Assume liability for all damages due to leakage, overflow or structural failure of the structure.
 - D. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.

DEADLINE

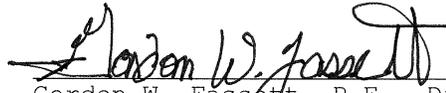

A plan of reservoir and specifications according to *Department of Natural Resources Rules of Practice and Procedure, Title 457 Neb. Admin. Code Chapter 11* must be filed within six months of the signing date of this application approval. The plan shall be prepared by a professional engineer and shall include a statement as to the hazard classification of the dam and whether it is subject to the *Safety of Dams and Reservoirs Act*. If the stage-storage table indicates normal pool capacity is less than 49.0 acre-feet, then the amount of water that may be diverted will be reduced. No rights shall be deemed to have been acquired until the provisions of this paragraph have been complied with, and a failure to do so shall cause a forfeiture of the appropriation and all rights thereof.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations and any orders issued by the Director of the Department of Natural Resources may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.
