ORDER

IT IS HEREBY ORDERED Application A-19151, DWV-4845 and map of reservoir number 18711 are APPROVED subject to the following limitations and conditions:

1. The source of water is a tributary to Coon Creek.
2. The priority date is October 21, 2013.

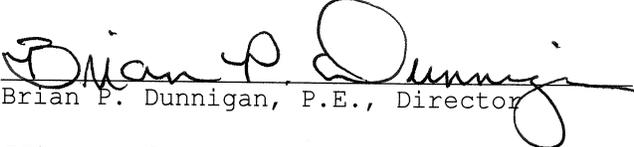

3. The amount of water that may be diverted shall not exceed 29 acre-feet per year to be stored in Kometscher Reservoir No. 1490. Kometscher Dam No. 1490 is located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$  of Section 4, Township 4 North, Range 28 West of the 6<sup>th</sup> P.M. in Red Willow County.
4. The water stored under this appropriation is for the purpose of providing water for livestock.
5. Neb. Rev. Stat. § 46-241(5) states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls, or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock ... ."
6. The owner or possessor of the reservoir storing water pursuant to A-19151 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.
7. A waiver of the requirement for a drawdown, DWV-4845, has been granted. This waiver does not relieve the owner from the responsibility to pass a portion of the reservoir inflow by some method for downstream appropriators should there be a need for water administration; or if water should be required for livestock needs, unless the appropriator is a political subdivision. The Department may rescind the waiver and require installation of appropriate outlet works at a later date if it is determined that the responsibility to pass inflows is not being met or cannot be met by another method.
8. The appropriator must comply with all relevant statutes. This includes, but is not limited to, the following:
  - A. Notify the Department of any change in ownership or address.
  - B. Receive approval prior to taking any action that changes the storage capacity of this reservoir, the specifications, map of reservoir 18711, or the type of appropriation.
  - C. Assume liability for all damages due to leakage, overflow or structural failure of the structure.
  - D. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.
