

The Central Platte Natural Resources District (CPNRD) will be hosting a meeting to review the draft results of a study currently being conducted by HDR Engineering to assess potential modifications to the methods used by the Nebraska Department of Natural Resources (NDNR) to assess fully appropriated basins. This study has been a joint effort by the CPNRD and NDNR and has been ongoing since 2010.

This meeting will be held on January 7, 2013 at 1:00 pm central at the offices of CPNRD in Grand Island (215 Kaufman Avenue). Please contact Jesse Bradley of the Nebraska Department of Natural Resources (402-471-0586 or jesse.bradley@nebraska.gov) with any further questions regarding the meeting.
