
Substantial Damage Estimator 3.0

NEBRASKA
DEPT. OF NATURAL RESOURCES

Purpose of the SDE 3.0

NEBRASKA
DEPT. OF NATURAL RESOURCES

Why Use SDE 3.0

- The Substantial Damage Estimator (SDE) Version 3.0 Tool was developed by the Federal Emergency Management Agency (FEMA) to assist state and community officials in estimating Substantial Damage to residential and non-residential structures
- Damage must be determined as substantial or non-substantial in order to properly permit repairs

How Does it Benefit the Floodplain Administrator?

- A formalized and organized approach for estimating Substantial Damage and Substantial Improvement
- Reasonable and defensible structure-specific values and damage estimates
- Demonstration of compliance with the NFIP requirements for Substantial Damage determinations
- A FEMA-accepted method for determining Substantial Damage and Substantial Improvement
- Structure-specific summary reports that can be included with Substantial Damage determination letters sent to structure owners
- Summary reports that can be used in support of the Increased Cost of Compliance (ICC) claims

How Does it Work?

- Simply plug in information about the structure:
  - Type of structure: Single family, Business, Condo, etc.
  - Size of structure
  - Foundation
- Input the estimated percent of damage for each element of the structure:
  - Roof
  - Exterior (siding)
  - HVAC
- The program spits out a percentage

NEBRASKA
DEPT. OF NATURAL RESOURCES

Download Program

Go to http://www.fema.gov/ & type SDE in the search box

The Installation Guide provides detailed installation instructions: https://www.fema.gov/sites/default/files/2020-07/sde_read_me_-_SDE_3.0_Tool_Installation_Guide.pdf

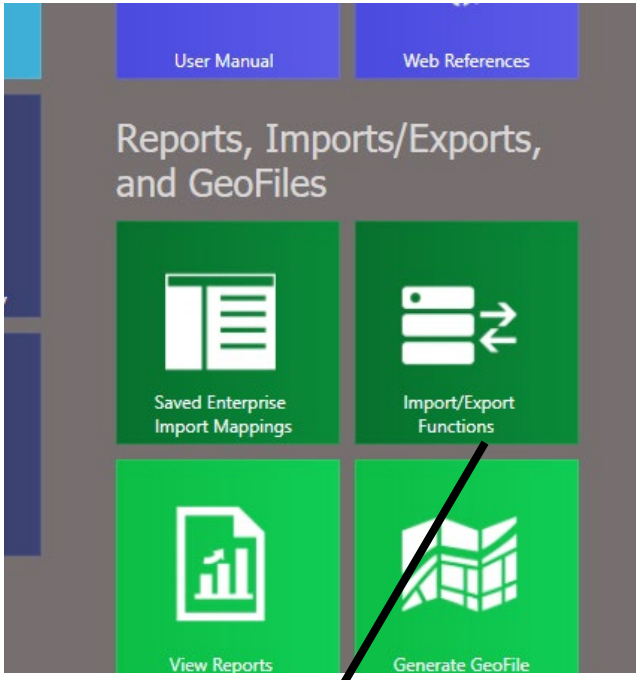
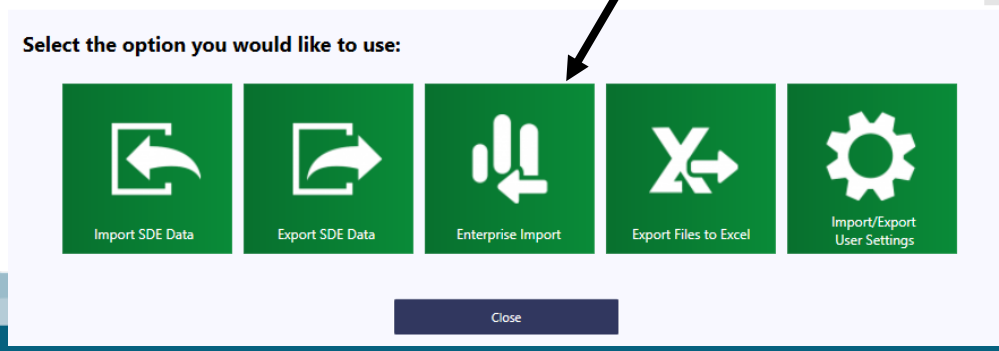
Uploading a Batch Property List

NEBRASKA
DEPT. OF NATURAL RESOURCES

SDE 3.0 Property Upload Tool

- Lists of properties can be uploaded using an Excel spreadsheet
- Can save time for communities with many structures in floodplain
- Uses the “Enterprise Import” function



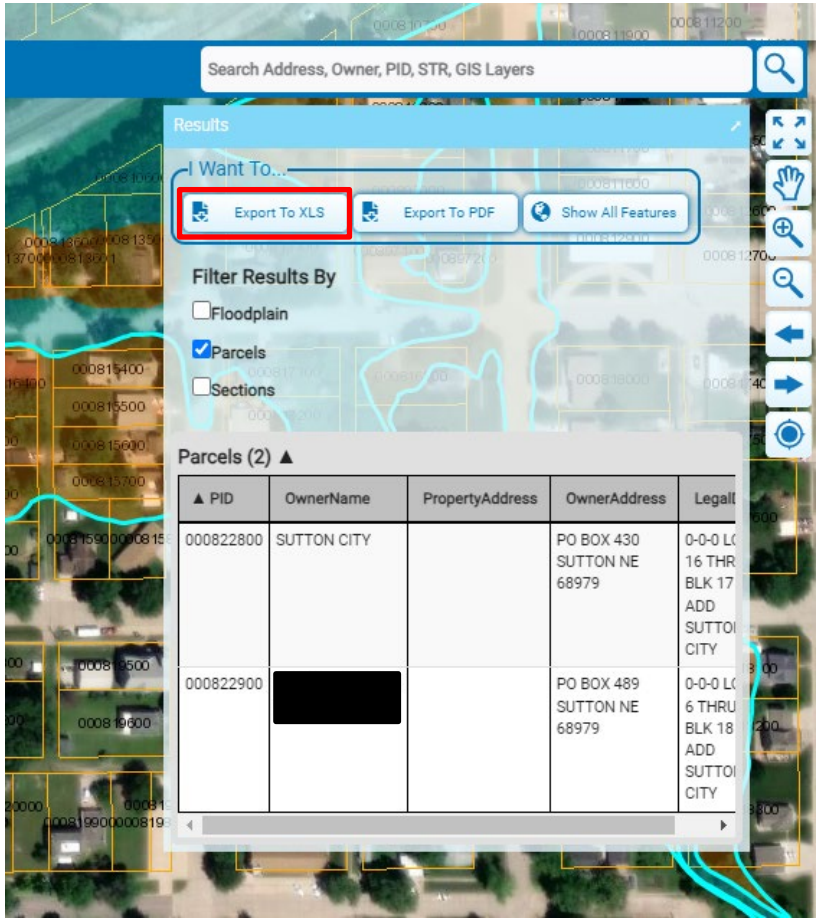


Step 1: Create the List of Properties

- We recommend using your county assessor's G-works (or similar) website
  - Users can pull a list of properties into an excel sheet
  - Assessor's office may be able to help
  - Works best with a floodplain layer
    - https://msc.fema.gov/portal/home

Step 1: Create the List of Properties

- Hold “Ctrl” and select each parcel
- Then click “Export to XLS”



Step 1: Create the List of Properties

Step 2: Format the Excel List

- To upload the list to SDE 3.0, it must be formatted to be compatible
- Use the recommended headings in the User Guide
- Template on our website under “Other Publications”:

  https://dnr.nebraska.gov/floodplain/digital-desk-reference

Welcome Guide for New Floodplain Administrators

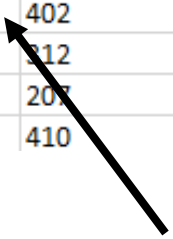
Step 2: Format the List – Required Items

- Must specify Residential or Non-Residential
- Must have columns for Street Number, Street Name, and Street Suffix
- May separate First and Last Name columns, or put full name in one and delete the other

Step 2: Format the List

- Every cell must be occupied

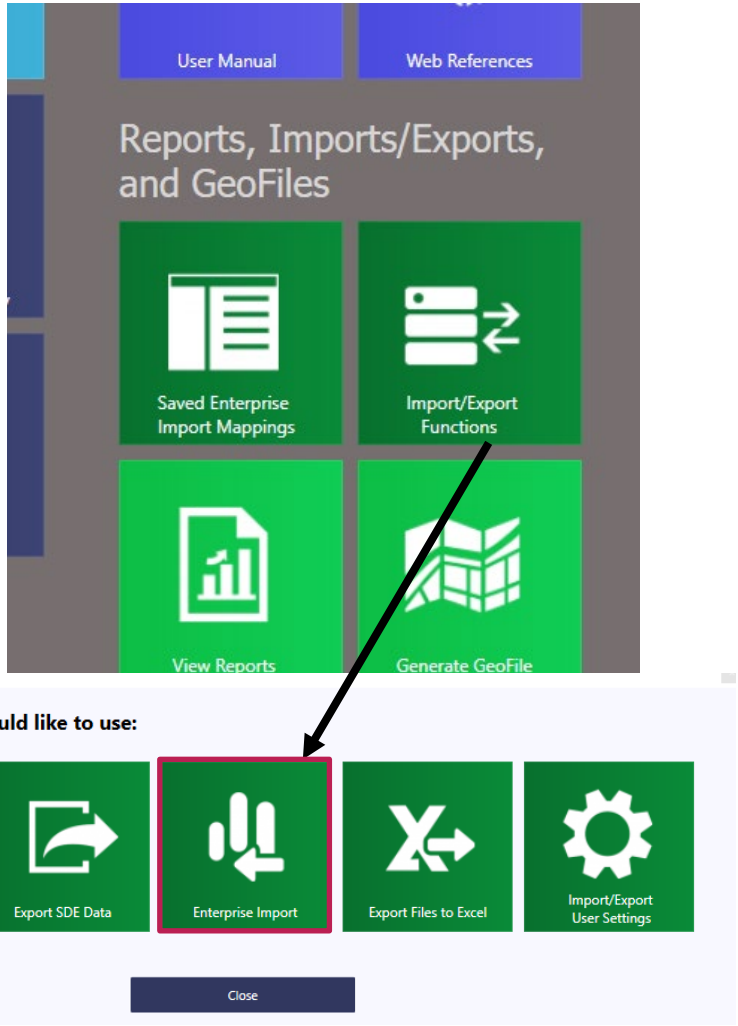
Structure Owner Last Name	Structure Owner First Name	Phone Number	Street Number	Street Name	S
Doe	John	402-471-0640	412	West Maple	S
Doe	Jane	402-471-0641	406	West Maple	S
Doe	John		402	West Maple	S
Doe	Jane	402-471-0643	312	West Maple	S
Doe	John	402-471-0644	207	North Myra	S
Doe	Jane	402-471-0645	410	North Main	S



Entry won't upload. Use N/A or 0 if information is missing

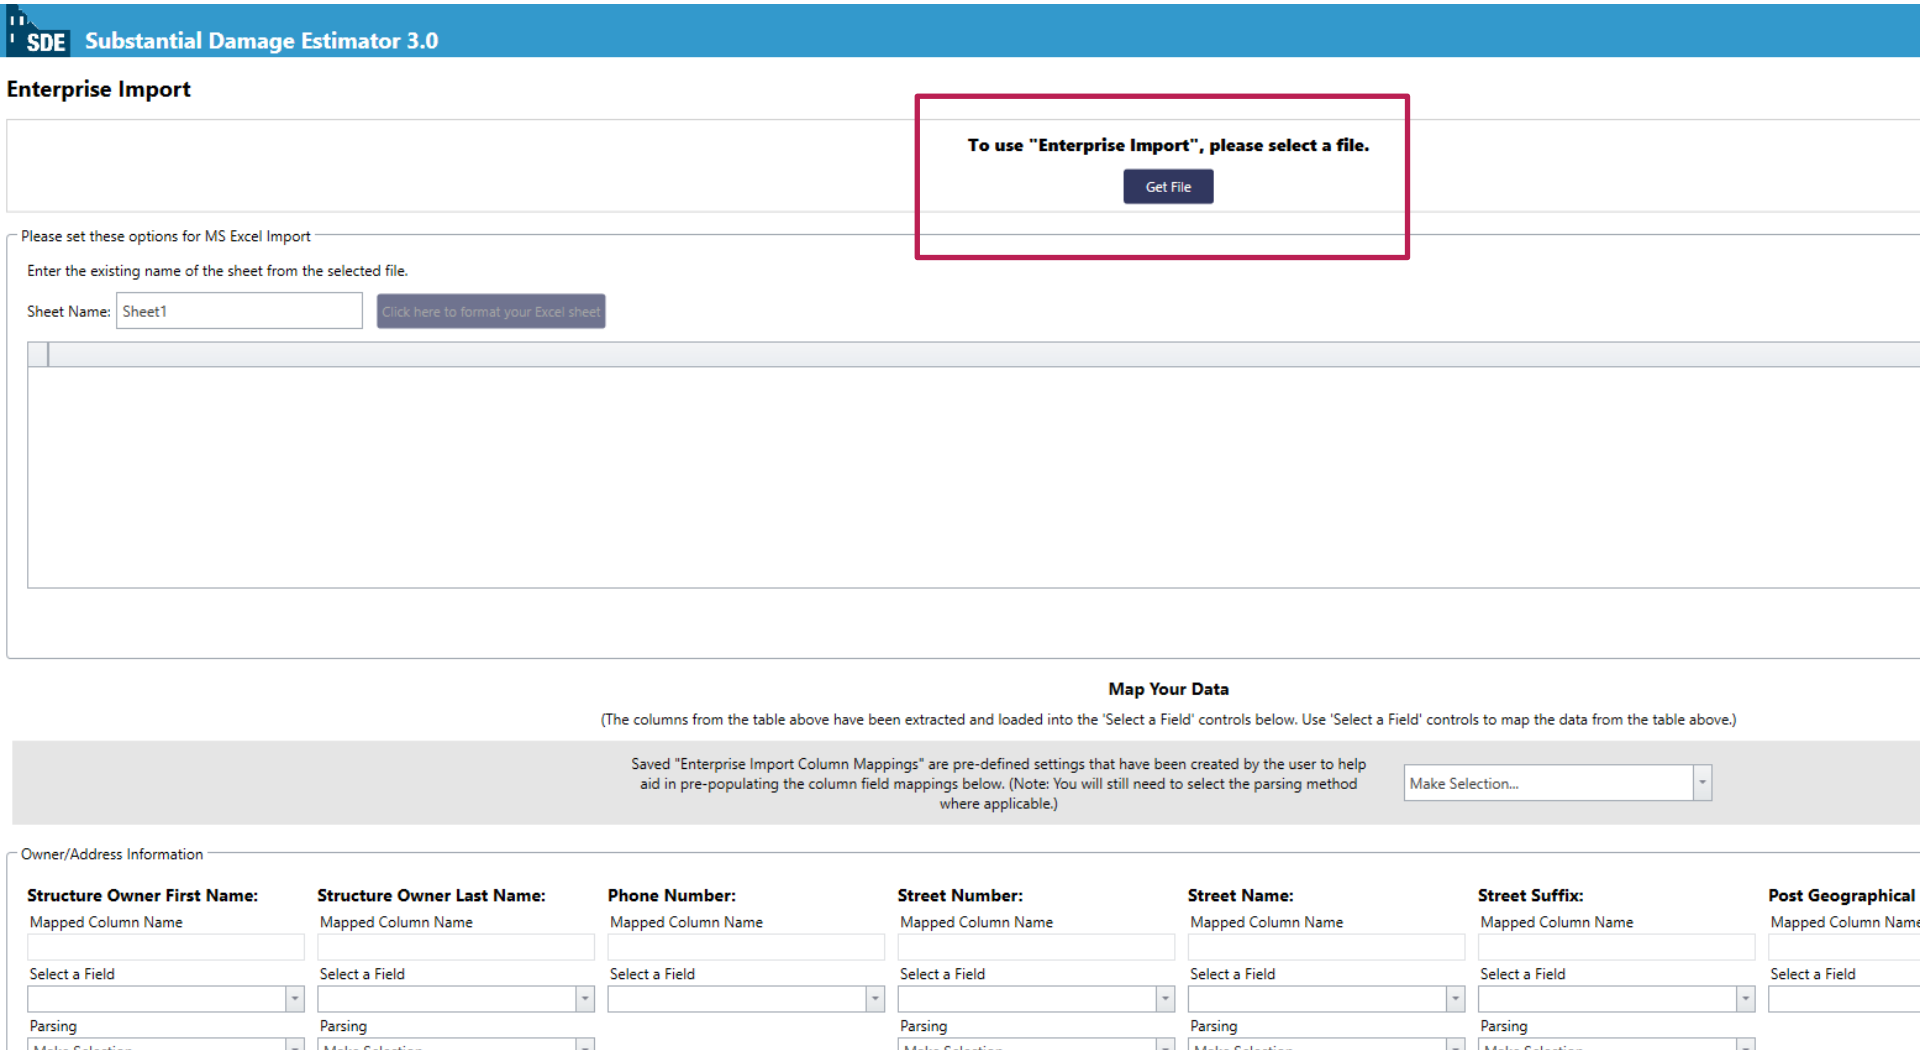
Step 3: Upload to SDE 3.0

- Use the Enterprise Import function



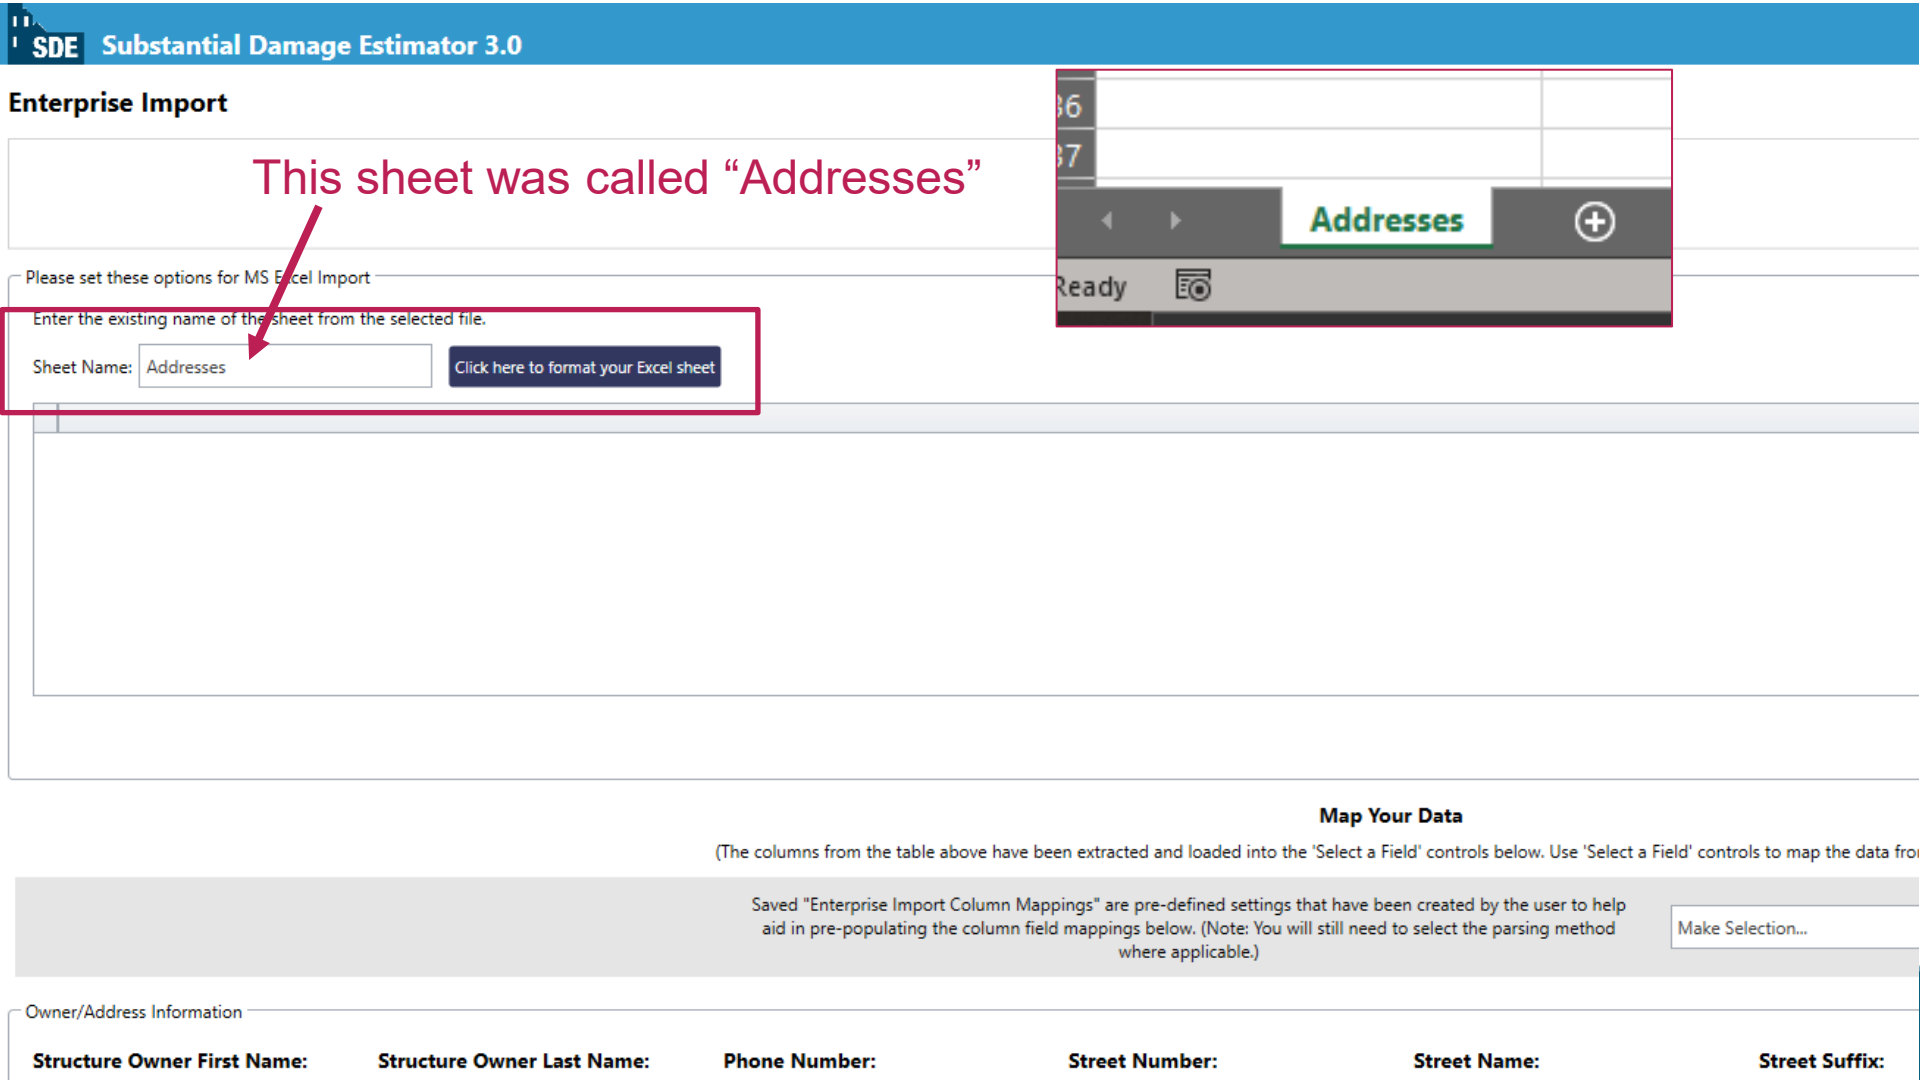
Step 3: Upload to SDE 3.0

- Add the Excel Sheet by clicking “Get File”



Step 3: Upload to SDE 3.0

- Reference the correct “Sheet” name



Step 3: Upload to SDE 3.0

- Click “Click here to format your Excel sheet”
