

STATE OF NEBRASKA

DEPARTMENT OF WATER, ENERGY, AND ENVIRONMENT

APPROVAL OF APPLICATION A-20093 AND MAP NUMBER 21610

WATER DIVISION 2-A

BACKGROUND

1. On May 1, 2025, Jacob Woodward filed in the Department of Water, Energy, and Environment (Department) application A-20093 for a Permit to Appropriate Water for a domestic purpose.
2. On July 21, 2025, Jacob Woodward filed in the Department map number 21610 showing land proposed to be irrigated under application A-20093.
3. Construction has been completed.

ORDER

IT IS HEREBY ORDERED that application A-20093 and map number 21610 are APPROVED subject to the following limitations and conditions:

1. The following land is authorized to be irrigated (appurtenant land) under surface water appropriation A-20093 as depicted on map number 21610 which is made a part of this Order.

| | |
|---|--------------|
| Township 18 North, Range 13 West of the | |
| <u>6th P.M. in Valley County</u> | <u>Acres</u> |

| | |
|---|-----|
| Section 26: NE $\frac{1}{4}$ SE $\frac{1}{4}$ | 1.0 |
|---|-----|

2. Appropriation A-20093 has a priority date of May 1, 2025, and authorizes the appropriator the use of 0.11 cubic feet per second (cfs) (49 gallons per minute) of water for watering the one acre of land described above. The annual volume is limited to three acre-feet per acre actually and beneficially irrigated.
3. The water may be diverted from Mira Creek at a point of diversion located on the right bank of the stream in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, Township 18 North, Range 13 West of the 6th P.M. in Valley County, as depicted on map number 21610.
4. Only the land shown on map number 21610 may be irrigated under appropriation A-20093 unless a change is authorized by subsequent Order of the Department.
5. If during the course of construction of this project it is determined that there is a difference in the number and/or location of acres from the approved map, an amended project map may be filed for an equal or lesser number of acres prior to the beneficial use investigation deadline. The Department, at its sole discretion, must determine that the change from the original map remains within the original project concept and does not violate any rules and/or statutes and will not harm another

appropriator. The amended map may then be approved by Order of the Department for an equal or lesser number of acres of land or amount of water than originally granted.

6. A measuring device, approved by the Department, may be required if so ordered by the Department.
7. The appropriator must comply with all relevant statutes. The statutes include, but are not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Notify the Department of the name and address of the person responsible for the use of the water appropriation (this may include farm managers, tenants, or relatives that actually apply the water to the approved use).
8. The appropriation is not considered perfected until water has been beneficially applied for the purpose stated in this Order. The water appropriated under A-20093 must be beneficially used by September 1, 2028.
8. After September 1, 2028, a field investigation will be conducted to determine the lands where water has been beneficially applied.
 - A. If the entire appropriation is found to have water beneficially applied, a Certificate of Perfected Appropriation will be issued by the Department for A-20093.
 - B. If a portion of the appropriation is found to have had water beneficially applied within the original project concept the Department may, at its discretion, modify the project map and land listing to represent the conditions found during the field investigation. The number of acres and diversion rate determined by the Department will not exceed what is granted by this Order. A new Order specifying the final number of acres, location of acres and diversion rate will be issued by the Department for A-20093.
 - C. If no portion of the appropriation is found to have water beneficially applied, the Department will issue an Order of Cancellation in Full for A-20093.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations, any orders issued by the Department, or the provisions of this Order may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.

Nebraska law provides that failure to use a portion or all of a perfected appropriation for more than five consecutive years may result in cancellation of the appropriation.

This appropriation is not a guarantee that water will be available. Nebraska law gives priority to senior appropriations. This appropriation may be closed if there is insufficient water to satisfy senior appropriations. If in the future you are not able to divert sufficient amounts of water, and if there are junior appropriations upstream, you may call for water by contacting your local field office.

DEPARTMENT OF WATER, ENERGY, AND ENVIRONMENT

September 3, 2025

Matthew T. Manning, PE, JD
Chief Water Officer

A copy of this Order was posted on the Department's website. Copies of this Order and map number 21610 were provided to the Department's field office in Ord, Nebraska. Copies of this Order, map number 21610 and Surface Water Administration brochure were mailed to the following:
