

### Water Trivia (Easy)

1. Since the formation of the earth the total volume of water has \_\_\_\_\_.  
A. Increased      B. Decreased      C. Stayed the Same
  2. Precipitation replenishes the water in lakes and ponds.  
True      or      False
  3. What state has the largest aquifer?  
A. Texas      B. Alaska      C. Nebraska
  4. What is the largest aquifer in the USA called?  
A. Ogallala      B. Missouri      C. Platte
  5. The Ogallala Aquifer is the only aquifer in Nebraska.  
True      or      False
  6. What two elements make up water?  
A. Nitrogen & Gold      B. Hydrogen & Oxygen      C. Helium & Iron
  7. Water is the only substance on earth found naturally in liquid, solid, and gas forms.  
True      or      False
  8. Nearly 97% of the worlds water is too \_\_\_\_\_ to drink.  
A. Clean      B. Cold      C. Salty
  9. What is it called when we add water to crops?  
A. Irrigation      B. Crop Dusting      C. Harvesting
- 

10. What is the chemical formula for water?

- A. O<sub>2</sub>                      B. H<sub>2</sub>O                      C. OH<sub>2</sub>

11. What is the most important liquid on the planet?

- A. Oil                      B. Milk                      C. Water

12. What is it called when it doesn't rain or snow for a long time?

- A. Flood                      B. Monsoon                      C. Drought

13. What percentage of the human body is water?

- A. 100%                      B. 27%                      C. 66%

14. At what temperature does water freeze in Fahrenheit?

- A. 0°                      B. -10°                      C. 32°

15. Taking a shower uses how many gallons of water per minute?

- A. 300 gal/min                      B. 5 gal/min                      C. 25 gal/min

16. How long can a human last without water?

- A. A few weeks                      B. A few months                      C. A few days

17. What is the longest river in the world?

- A. Mississippi                      B. Nile                      C. Rio Grande

18. What is the solid state of water?

- A. Vapor                      B. Ice                      C. Liquid

19. What turns water into vapor during the water cycle?

- A. The sun                      B. The moon                      C. The ocean

20. Rain and snow are called precipitation.

True                      or                      False

21. What two organisms build dams in rivers?

- A. Beavers      B. Musk Rats      C. Humans

22. What river carved the Grand Canyon?

- A. Mississippi      B. Colorado      C. Nile

23. What are we looking for when we drill into an aquifer?

- A. Oil      B. Soap      C. Water

24. What is it called when water goes from a body of water into the atmosphere?

- A. Evaporation      B. Condensation      C. Precipitation

25. What is the gas form of water called?

- A. Air      B. Ice      C. Vapor
