Summary of Water Use

The following is a compilation of records, statistics, and historic conditions of water use which have been tracked by the Central Platte Natural Resources District (CPNRD) for calendar year 2022. All information supplied for this summary is organized within a GIS database complete with the locations, attributes, and metadata necessary to recreate this report in tabular form. This report has been compiled for the 2023 Platte Basin meeting.

Certified Irrigated Acres

In 2006, the district began certifying historic ground water and surface water irrigated acres. To be certified as irrigated, the land must have been irrigated at least 2 out of the 10 years for the period of 1995 – July 26, 2004. Land within the District but outside the original State stay on newly irrigated acres (January 6, 2006) could be developed (newly irrigated) in 2005 and was certified later in 2008-2009. The initial certification process ended on March 31, 2008; however, land is constantly coming into compliance using FSA compliant records depicting certified irrigated boundaries and associated 578 forms of certified irrigated crops with farm and tract numbers. Since that time, additions and de-certifications to the certified irrigated acres database have occurred through December 31, 2022, with a net result of 1,018,829 certified acres.

Detailed data regarding amount and water source of certified irrigated acres can be found in **Table 1. Certified Acres** below.

Table 1. Certified Acres

Year	Acres Certified	Acres of GW	Acres of SW	Co-Mingled Acres
2022	1,018,829	936,817	5,239	76,773

Approved Transfers

Between January 1 and December 31, 2022, the CPNRD approved 114 transactions of water use transfers.

The certified acre total for 2022 involved in these transfers to new irrigated lands was 1,349 acres. The total number of certified acres used to offset the new uses was 1,100. For further analysis and statistics, see **Table 2. Transfers** below. Each transfer resulted in no net increase in stream depletions.

Detailed data that displays the necessary information regarding the location, timing, amount, and conditions associated with each transfer is shown in the Appendix, **Attachment 1** and **Attachment 2**.

Table 2. Transfers

Year	Cumulative Total of Acres Certified	Number of Transfers	Acres Transferred to New Irrigation	Irrigation Transferred from Certified Acres	Retired Surface Water Acres	Retired Ground Water Acres	Total Affected Acres
2022	1,018,829	114	1,349	1,100	0	177	2,626

Well Construction Permits

The CPNRD issued 106 well permits in 2022. Well permits by type are shown in **Table 3. Well Permits Issued by Type** below. Detailed data regarding location and permit number is shown in the Appendix, **Attachment 3**.

Table 3. Well Permits Issued by Type

Well Permit Type	2022	Associated Transfers
CPSG	29	0
CPSS	0	0
CPRP	67	0
CPCG	0	0
CPNP	1	0
CPDW	8	0
CPMU	0	0
CPIN	0	0
CPDO	1	0
TOTAL	0	0

Water Banking Activities

In 2022, the CPNRD retired 177 certified acres in Dawson, and the estimated accretion to the Platte River from ground water retirements is 116 acre-feet (ac-ft).

Retirements are shown in **Table 4. Retirements**.

By the close of 2022, the CPNRD Water Bank had a balance of 2,760 acre-feet of water rights available for offset in the over-appropriated area. Detailed data that displays the necessary information regarding the location, timing, amount, and conditions associated with each transfer is shown in the Appendix, **Attachment 4**.

Table 4. Retirements

Transaction ID	County	Township	Range	Section	Acres	Acre Feet
2341	Dawson	11	11	25	11	41.04
2361	Hall	5	9	9	5	12.77
2364	Dawson	15	9	22	15	9.28
2387	Dawson	29	11	24	29	34.79
2387	Dawson	29	11	24	29	18.84
