☒ Irrigation

☐ Public Water Supply

☐ Commercial/Industrial

☐ Domestic

☐ Livestock

☐ Other (explain) \_\_\_\_\_

8. Projected date water will first be pumped or date water was first pumped Fall 2021

9. State all alternative sources of water that are available and why applicant chooses not to use them: Request is to modify export permit TA 31 from 120.3 acres to 133.8 acres. Presently 33.5 acres Wyo. 96.8 Neb. After 43.4 Wyo 90.4 Neb. The increase is all on acres which are presently permitted for gravity irrigation. This change will therefore make efficiently utilize the ground water resource. The pumping capacity of the ground water well "G-015400" will not be changed and all prior usage has consistently been under the NPNRD allotments. No other users of the aquifer will be harmed, the change will actually increase return flow therefore benefitting downstream users which is all well within the spirit and the intent of the 3 state decree.

I have met with the Wyo State Board of Control Mr. Brinn Pugsley & North Platte Natural Resources staff Mr. Scott Schaneman & Mr. John Bengt. At no point during either meeting were adverse comments made regarding this change.

Betty Young & Fern Gullet, who were sisters, put their property into an entity Box A Ranch, LLC in Jan. 2014. This entity is organized and exists under the laws of the state of Wyo. My title is manager.

Mr. Thompson, while this is not your first notice of this change I do thank you for your work at this time. Alon

I certify that I am familiar with the information contained in this application, and that to the best of my knowledge and belief such information is true, complete and accurate.
