<i>Table 4. Retirements</i>	4
Appendix	5

Summary of Water Use

The following is a compilation of records, statistics, and historic conditions of water use which have been tracked by the Central Platte Natural Resources District (CPNRD) for calendar year 2023. All information supplied for this summary is organized within a GIS database complete with the locations, attributes, and metadata necessary to recreate this report in tabular form. This report has been compiled for the 2024 Platte Basin meeting.

Certified Irrigated Acres

In 2006, the district began certifying historic ground water and surface water irrigated acres. To be certified as irrigated, the land must have been irrigated at least 2 out of the 10 years for the period of 1995 – July 26, 2004. Land within the District but outside the original State stay on newly irrigated acres (January 6, 2006) could be developed (newly irrigated) in 2005 and was certified later in 2008-2009. The initial certification process ended on March 31, 2008; however, land is constantly coming into compliance using FSA compliant records depicting certified irrigated boundaries and associated 578 forms of certified irrigated crops with farm and tract numbers. Since that time, additions and de-certifications to the certified irrigated acres database have occurred through December 31, 2023, with a net result of 1,018,290 certified acres.

Detailed data regarding amount and water source of certified irrigated acres can be found in **Table 1. Certified Acres** below.

Table 1. Certified Acres

Year	Acres Certified	Acres of GW	Acres of SW	Co-Mingled Acres
2023	1,018,290	936,264	5,238	76,788

Approved Transfers

Between January 1 and December 31, 2023, the CPNRD approved 107 transactions of water use transfers.

The certified acre total for 2023 involved in these transfers to new irrigated lands was 792 acres. The total number of certified acres used to offset the new uses was 686. For further analysis and statistics, see **Table 2. Transfers** below. Each transfer resulted in no net increase in stream depletions.

Detailed data that displays the necessary information regarding the location, timing, amount, and conditions associated with each transfer is shown in the Appendix, **Attachment 1** and **Attachment 2**.

Table 2. Transfers

Year	Cumulative Total of Acres Certified	Number of Transfers	Acres Transferred to New Irrigation	Irrigation Transferred from Certified Acres	Retired Surface Water Acres	Retired Ground Water Acres	Total Affected Acres
2023	1,018,290	107	792	686	0	216	1,694

Well Construction Permits

The CPNRD issued 112 well permits in 2023. Well permits by type are shown in **Table 3. Well Permits Issued by Type** below. Detailed data regarding location and permit number is shown in the Appendix, **Attachment 3**.

Table 3. Well Permits Issued by Type

Well Permit Type	2023	Associated Transfers
CPSG	16	2
CPSS	0	0
CPRP	88	0
CPCG	0	0
CPNP	4	0
CPDW	0	0
CPMU	0	0
CPIN	4	0
CPDO	0	0
TOTAL	112	0

Water Banking Activities

In 2023, the CPNRD retired 216 certified acres in Dawson and Buffalo, and the estimated accretion to the Platte River from ground water retirements is 162.29 acre-feet (ac-ft).

Retirements are shown in **Table 4. Retirements**.

By the close of 2023, the CPNRD Water Bank had a balance of 2,112 acre-feet of water rights available for offset in the over-appropriated area. Detailed data that displays the necessary information regarding the location, timing, amount, and conditions associated with each transfer is shown in the Appendix, **Attachment 4**.

Table 4. Retirements

Transaction ID	County	Township	Range	Section	Acres	Acre Feet
2392	Buffalo	09	18	30	20	11.64
2401	Dawson	08	20	04	45	33.9
2482	Dawson	10	23	28	151	116.75
