7a.	Identify the diversion dam location if applicable: County	North, Range E W	
7b.	Name of supply canal		
8.	State the quantity of water desired: cubic feet	vater desired: cubic feet per second of time.	
9.	State the maximum head: feet.		
10.	The plant will be completed		
11.	The plant will be put in operation on or before		
12.	2. I certify that I am familiar with the information contained in this application, and that to the best of my knowledge and belief such information is true, complete and accurate.		
	ate Signature of owner or authorized agent		

This form must be completed in full. An incomplete or defective application will be returned with 90 days being allowed for resubmission. Failure to resubmit a corrected application within this time period shall cause dismissal of the application and consequent loss of priority.

A non-refundable filing fee (payable to the Department of Natural Resources) can be computed from the table below and must accompany this application. Forward this application and fee to:

State of Nebraska Department of Natural Resources 301 Centennial Mall South P.O. Box 94676 Lincoln, Nebraska 68509 (402) 471-2363 Fees for Application to Appropriate Water for Power

For fee purposes, theoretical horsepower shall be computed by multiplying the maximum amount of water applied for in the application, expressed in cubic feet per second, by the total head expressed in feet, and dividing the product by eight and eight tenths (8.8).

Scaled plans depicting the project must be submitted for departmental approval prior to construction. Within six months after the approval of an application for water power, the applicant shall enter into a contract with the State of Nebraska for leasing the use of all water so appropriated. Such lease shall be upon forms prepared by the Department, and the time of such lease shall not run for a greater period than fifty years; and for the use of water for power purposes the applicant shall pay into the state treasury on or before January 1 each year, fifteen dollars for each one hundred horsepower for all water so appropriated.
