

STATE OF NEBRASKA

DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-19643 AND PLAN NUMBER 20402

WATER DIVISION 1-F

BACKGROUND

1. On May 14, 2019, Galen and Mary Ann Haug filed in the Department of Natural Resources (Department) application A-19643 for a permit to impound water, application for approval of plans for dams, construction specifications and plan number 20402.
2. The plan is for a proposed dam subject to the *Safety of Dams and Reservoirs Act*.
3. Michael Sotak, P.E., FYRA Engineering, 12702 Westport Parkway, Suite 300, Omaha, Nebraska 68138, prepared the drawings and construction specifications.
4. The drawings and construction specifications were examined by a Registered Professional Engineer of the Department and were found to be consistent with current standards.
5. Following consultation with the Nebraska Game and Parks Commission, the Department finds the project is "unlikely to adversely affect" any state listed threatened or endangered species or their critical habitat as long as required tree removal is conducted outside of the maternity roosting period (June 1 - July 31) for the threatened northern long-eared bat.

ORDER

IT IS HEREBY ORDERED Application A-19643 and plan number 20402 are APPROVED subject to the following limitations and conditions:

1. The source of water is Clear Creek.
2. The priority date is May 14, 2019.
3. The amount of water that may be diverted shall not exceed 30.3 acre-feet per year to be stored in Galen Haug Grade Control Structure Reservoir. The dam that impounds water in the Reservoir will be located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 16, Township 03 North, Range 11 East of the 6th P.M. in Pawnee County.

4. *Nebraska Revised Statutes* § 46-241(5) states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required downstream in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock"
5. The owner or possessor of the reservoir storing water pursuant to A-19643 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.
6. A continuous recording device approved by the Department to monitor reservoir levels may be required if so ordered by the Department.
7. The appropriator must comply with all relevant statutes. These relevant statutory requirements include, but are not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Receive approval prior to taking any action that changes the storage capacity of this reservoir, the construction specifications, plan number 20402, or the type of appropriation.
 - C. Construct, operate and maintain the structure in accordance with *Neb. Rev. Stat. § 46-241* and the *Safety of Dams and Reservoirs Act*, §§ 46-1601 to 46-1670.
 - D. Assume liability for all damages due to leakage, overflow or structural failure of the structure.
 - E. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.
8. The appropriator must comply with the following deadlines:
 - A. The owner of the dam shall provide written notice to the Department at least ten days before construction, reconstruction, enlargement, alteration, breach, removal, or abandonment of the dam is to begin. Notices must be in writing and addressed to the Chief Engineer or the Construction Inspector of the Department's Dam Safety Section. Notices may be delivered to the Department by mail, facsimile or electronic mail.
 - B. Construction of the structure must begin within twelve months of the signing date of this application approval. The appropriator must proceed diligently with the construction unless interrupted by some unavoidable and natural cause.

- C. November 1, 2021, is the date construction of the structure must be completed.
- D. Any tree removal necessary for the project must be conducted outside of the maternity roosting period (June 1 - July 31) for the threatened northern long-eared bat.
- E. Upon completion of the structure, the appropriator shall file with the Department the enclosed "Construction Certification Form for Dams." Following receipt of this form, an approval to operate shall be issued by the Department if it determines that the dam is safe to impound within the limitations outlined in this Order. No impoundment in the structure shall occur prior to issuance of the approval to operate.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations and any orders issued by the Director of the Department of Natural Resources may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.

DEPARTMENT OF NATURAL RESOURCES

August 27, 2019

Gordon W. Fassett, P.E., Director

A copy of this Order was posted on the Department's website. Copies of this Order, engineering review report, plan number 20402 were provided to the Department's field office in Lincoln, Nebraska. Copies of this Order and a "Construction Certification Form for Dams" were mailed to the following:

Michael Sotak, P.E.
