

Permits Approved in Niobrara River Basin in Wyoming Since Last Spring Meeting on April 5, 2016

WR Number	PriorityDate	Company	FirstName	LastName	FacilityName	Uses	Tw	Rng	Sec	Qtr-Qtr	Total Flow(CFS)/ Appropriation(GPM)
P205527.0W	05/10/2016		FRANK	LADWIG	DEER HORN	DOM_GW	033N	065W	13	SW1/4SW1/4	25
P35663.0D	09/27/2016	WYDOT	MATT	SIMPSON	N403008 (2) WATER HAUL	TEM	031N	060W	16	NE1/4SE1/4	1

Notes:

The State Engineer's Office is still holding, unapproved, four irrigation use applications that violate the spacing policy currently in place for the area.

P35663..0D is a surface water permit that allows water to be appropriated from Van Tassell Creek at a rate of 1 cfs for a period of two years and used for road construction.
