Water Planning in Nebraska

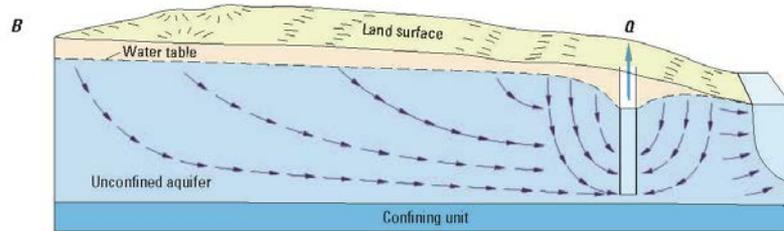

Hydrogeology 101

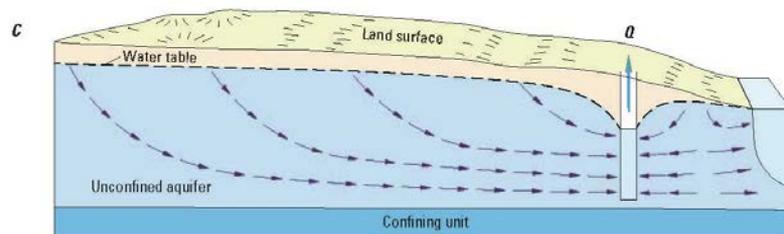

Hydrogeology 101

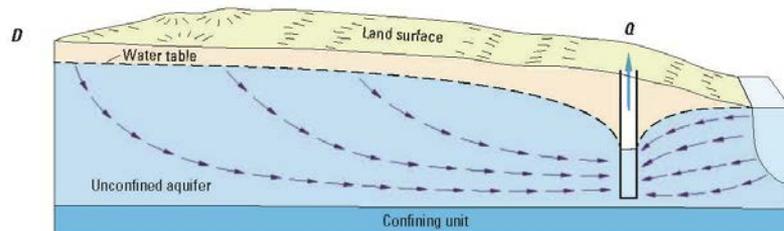

A. Pre-development Conditions

B. Pumping from aquifer storage

C. Interception of groundwater baseflow

D. Interception of groundwater baseflow and induced infiltration

Integrated Management Planning: What is it?

- Surface water and groundwater management
- Proactive
- Protects existing users
- Adaptive management
- Jointly developed between NRD and NeDNR
- Suited to local conditions

IMP Statutory History

2004 - LB962

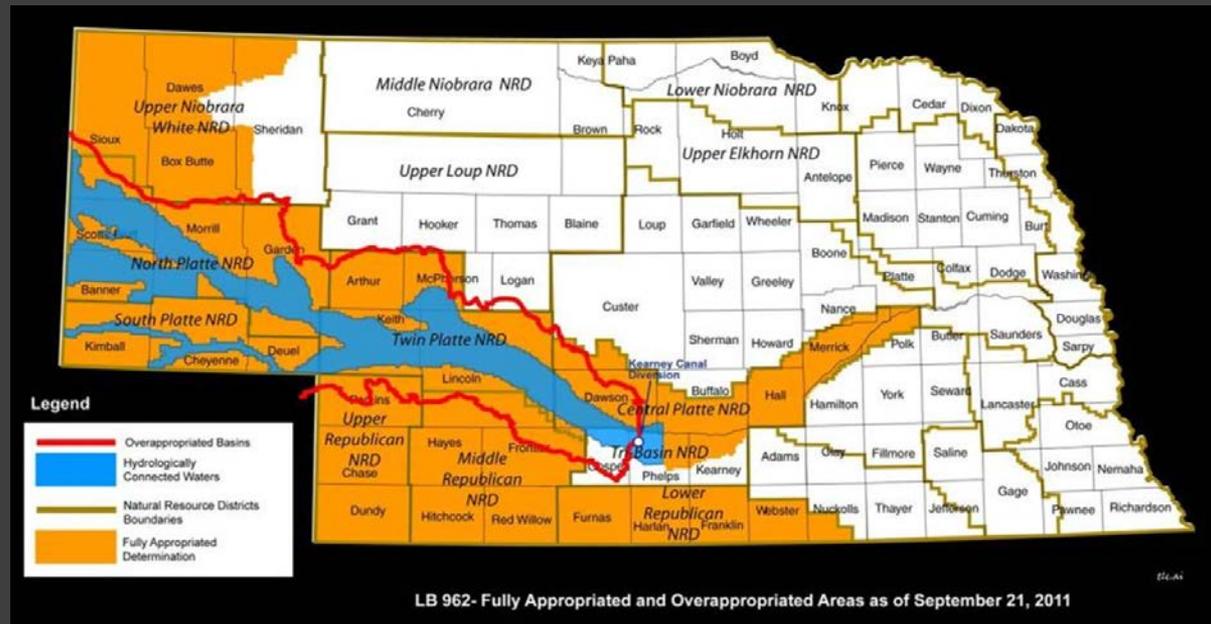

- IMP required if fully or overappropriated
- No mechanism for voluntary IMPs

2010 - LB764

- Authorized voluntary IMPs

2014 - LB1098

- Water Sustainability Fund

Why Do A Voluntary Integrated Management Plan?

- Better planning to prevent fully appropriated status
- Proactive approach to water management
- Local buy-in leads to more effective water management
- Eligibility for the Water Sustainability fund
- Multi-faceted education process
- Flexible – Adaptive Management

Integrated Water Management

IMPLEMENTATION

Water Management
Projects

Strategic Planning Actions

PLANNING
AND PUBLIC
PARTICIPATION

Goals and Objectives
for Water Planning

Stakeholder Involvement

Water Availability and Water
Shortages

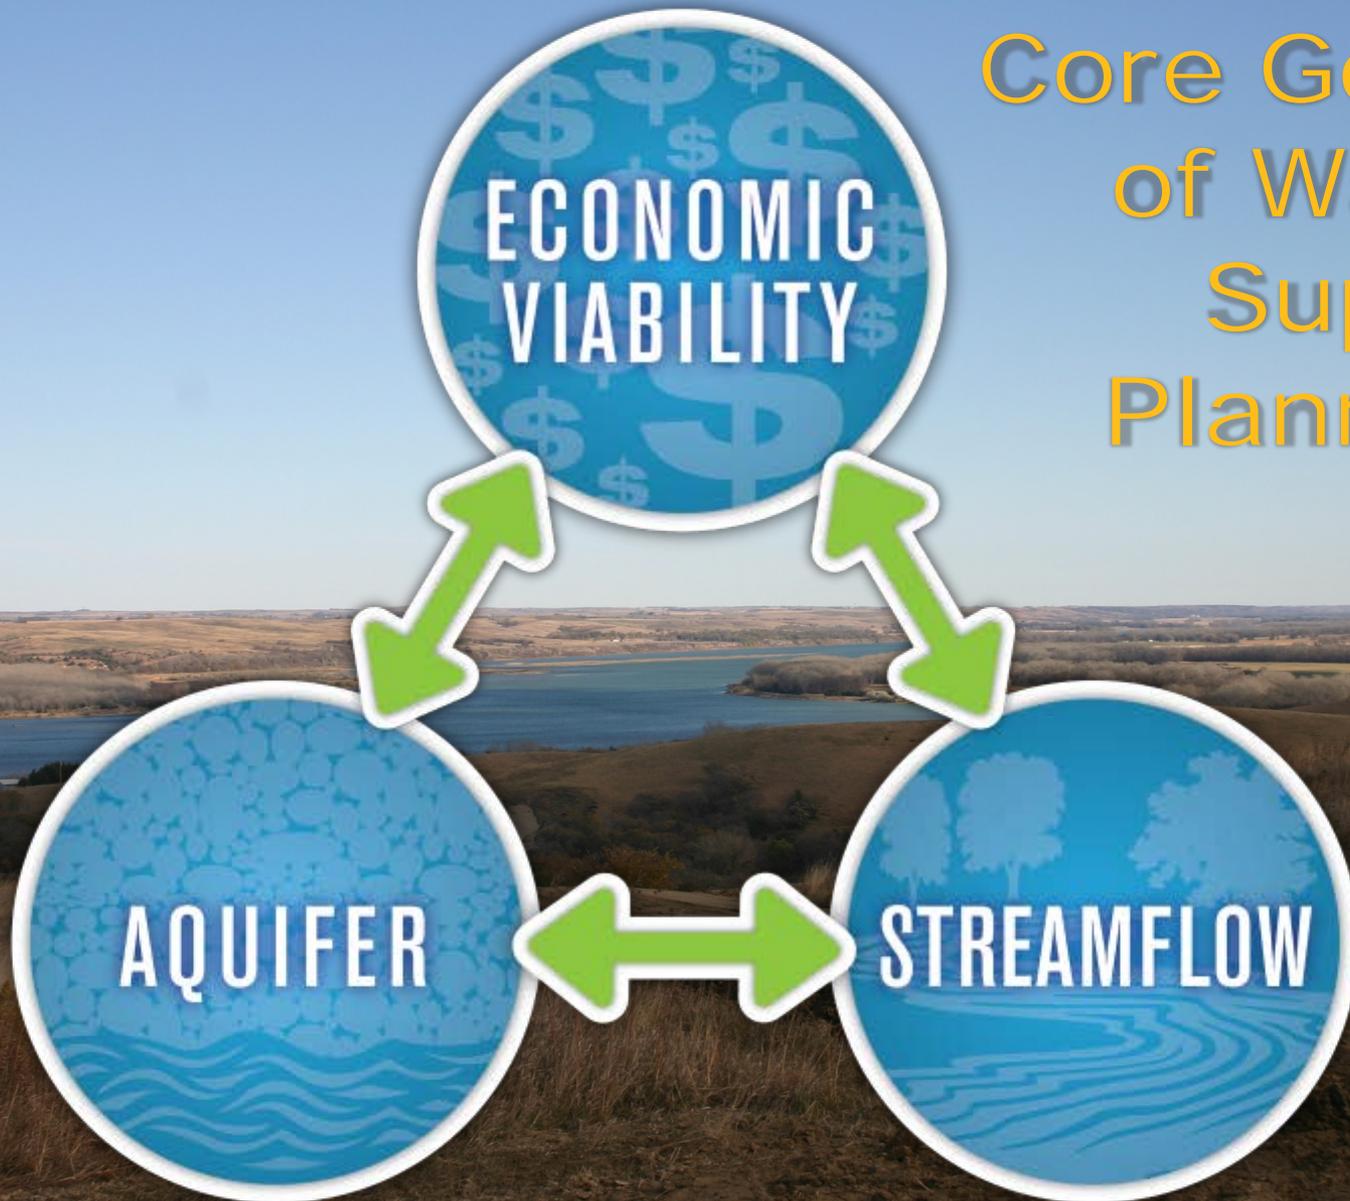

Water Supplies and Water Uses

SCIENCE

Hydrologic Models, Data, and Analyses

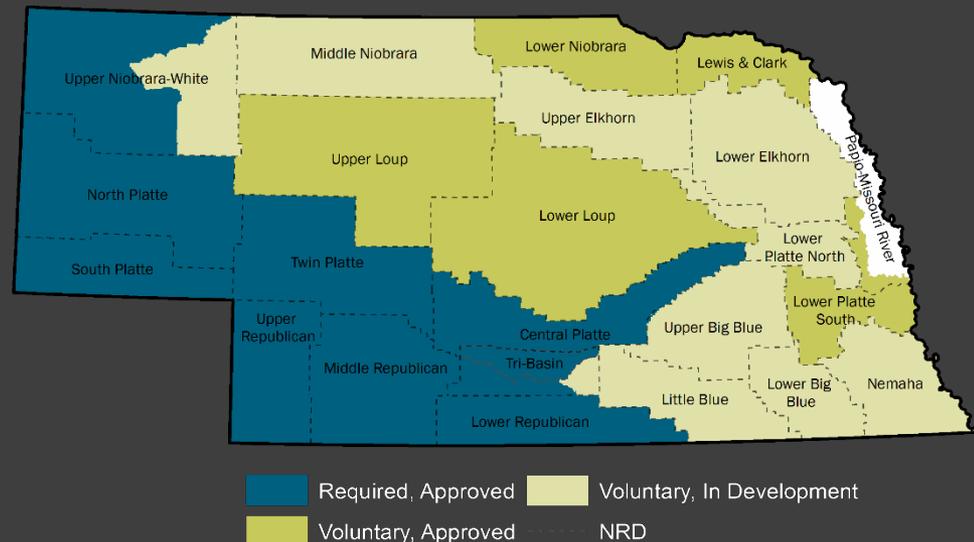

Core Goals of Water Supply Planning

Integrated Management Planning is a Collaborative Process

- ✓ NeDNR + a Natural Resources District (NRD)
 - IMP development
 - Plan implementation

✓ Stakeholder input

IMP Development Process

DNR/NRD Collaboration

Initiate IMP Process

Stakeholder Invitations

Develop Goals & Objectives

Develop Action Items

Draft IMP

Reach consensus

Consider testimony

Adopt Plan, Publish Orders

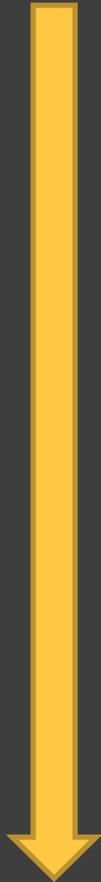

IMP Implementation

Public Involvement

Consult with stakeholders

Continue to engage stakeholders

Hold Public Hearings

Stakeholder Roles

- Convey local water issues/concerns
- Guide development of goals and objectives
- Disseminate information to local groups about IMP
- Attend meetings

Requirements for Stakeholder Representatives and Comment

- **Representatives of:**
 - ✓ Irrigation districts
 - ✓ Public power and irrigation districts
 - ✓ Reclamation districts
 - ✓ Mutual irrigation and canal companies
 - ✓ Municipalities
 - ✓ Other water users as deemed appropriate
- **Consult with the above groups, and actively solicit public comments, opinions through public meetings and other means; Pursuant to Neb. Rev. Stat. § 46-717(2)**

NRD/Department Roles

- Acquire/disseminate information/data needed for stakeholder process
- Help formulate goals and objectives with stakeholders
 - Coordinate with each other, stakeholders, facilitators throughout IMP process
 - Help determine/convey feasible actions for plan implementation
 - Write the Integrated Water Management Plan

Voluntary Integrated Management Plan Components

- Required components
 - Goals/Objectives
 - Purpose to achieve and sustain a balance between uses and supplies
 - Map of geographic area
 - One or more GW controls (§ 46-739)
 - One or more SW controls (§ 46-716)
 - Monitoring program
- Additional components
 - Action items to achieve goals/objectives
 - Evaluation and review process
 - Education and outreach plan
 - Incentive programs

IMP Implementation

- Action Items
- Monitoring Program
 - Tracking action items in context of achieving goals & objectives
- Evaluation
 - Are action items achieving desired goals?
 - Are water supply and demand changing?
 - Have goals changed?
 - Has fully appropriated status changed?
- Adaptive Management
