Subject: Re: Publication notification

I have a signed agreement with the landowner, Don Stretesky. It contains the full details of our agreement to buy-sell water. I can provide you with a copy but would like to understand the nature of your request for that information, and confirm that the contents of the agreement will remain confidential between your office, and will not be published or shared in any way?

Subject: Publication notification

Curt, the attached is my notice to transfer water, notice of publication. I will send a hard copy to your attention with the check for \$10.00. Please let me know if there's anything else you need from me. I believe that Travis at the SPNRD is needing some sort of a verification from your office as well.

Thanks
